

He Didn't Open a Job Board or LinkedIn.

Yet He Landed a ₹59.5 LPA Offer in Just 107 Day

A senior IT leader with 14+ years across 5 countries was stuck at zero. Not because of capability. Because of time. He had no bandwidth to apply within 24 hours, reach out to recruiters, follow up consistently, or tap into the hidden job market for senior Cloud, IT Infrastructure, Digital Transformation, and Technology Leadership roles. We stepped in as his Executive Job Search Partner and took over complete execution. He did not search for a single job. 30 days later: 8 interviews. 5+ responses through applications. 3 through targeted outreach. Opportunities across 3+ countries. And in 107 days, the search converted into a ₹59.5 LPA offer for a senior technology leadership opportunity.

- 01
No time to apply within 24 hours
The callback window closes fast. He was missing it every single time.
- 02
Zero follow-up after applications
Applications submitted. No outreach to recruiters. No conversations started.
- 03
Invisible on LinkedIn & Naukri
Inconsistent activity pushed him down in recruiter search rankings.
- 04
No access to global hidden roles
UAE, UK, Vietnam roles circulating only within agency networks.
- 05
Resume was a task-list
Bayt.com format. Not speaking to executive recruiters.

THE EXECUTIVE JOB SEARCH PARTNER

We Did Not Coach Him. We Executed For Him.

Not advice. Not templates. Complete job search execution ownership.

First step: Resume Branding, LinkedIn Optimization, and Naukri Optimization. But that was just the foundation for what eventually became a ₹59.5 LPA offer.

Structured End-to-End Execution

We did not hand him a plan and walk away. We structured his entire job search and ran it daily. Applications, outreach, follow-ups, tracking. All owned by us.

Applied Within 24 Hours to Every Relevant Role

Speed matters. Every relevant posting across India, US, Singapore, UAE and UK was applied to within 24 hours. Resume aligned to each JD to improve relevance score.

Recruiter Outreach Alongside Every Application

Every application was paired with direct outreach to recruiters and hiring managers at the target company. No application went in silently.

Leveraged Our Recruitment Agency Network

Circulated his profile across our network of recruitment agencies to access hidden opportunities that are never posted on public job boards.

Opened Global Opportunities He Wasn't Reaching

UK, UAE, Vietnam, Singapore. International roles were activated through our agency network. Opportunities he wasn't reaching through traditional job search channels.

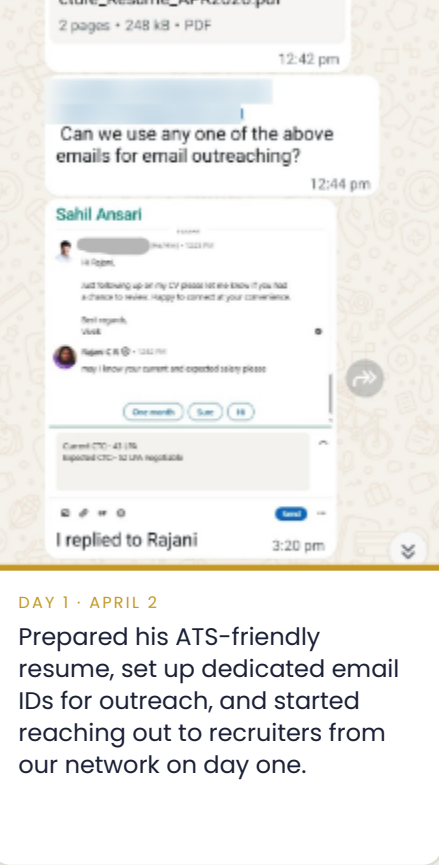

Solved His Core Problem: Time

He did not have time to execute. We solved that by owning execution completely. He stayed focused on his current role. We ran his job search every single day.

EXECUTION IN ACTION

This Is What Daily Job Search Execution Looks Like.

Every WhatsApp message below is from our actual engagement. Nothing staged. Nothing passive.

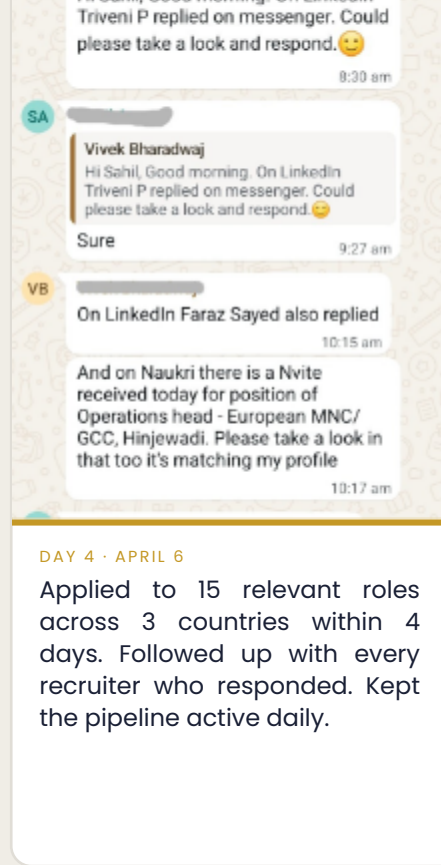

DAY 1 - APRIL 2

Prepared his ATS-friendly resume, set up dedicated email IDs for outreach, and started reaching out to recruiters from our network on day one.

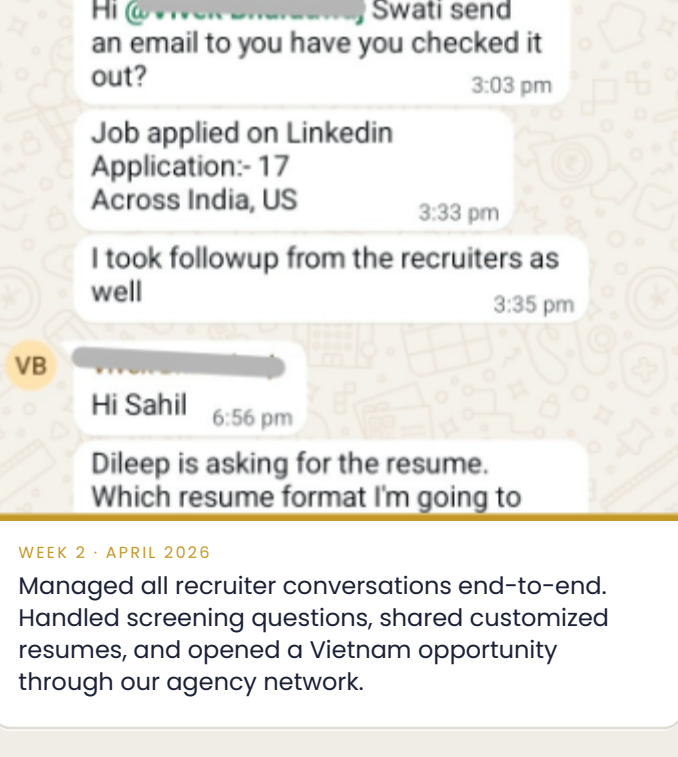

DAY 1 - APRIL 2

Responded to every inbound recruiter message within minutes. Coordinated with Vivek in real time. No lead was left unattended.

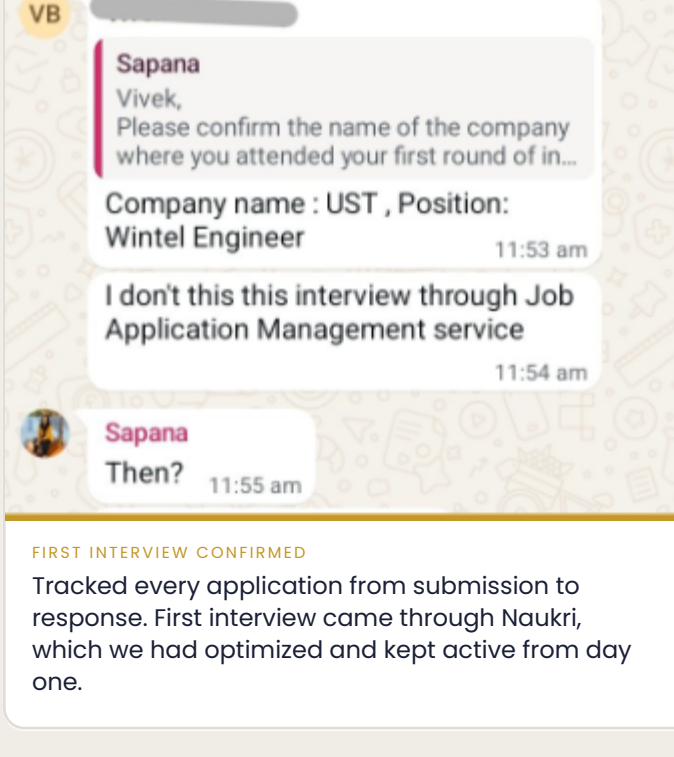

DAY 4 - APRIL 6

Applied to 15 relevant roles across 3 countries within 4 days. Followed up with every recruiter who responded. Kept the pipeline active daily.

WEEK 2 - APRIL 2026

Managed all recruiter conversations end-to-end. Handled screening questions, shared customized resumes, and opened a Vietnam opportunity through our agency network.

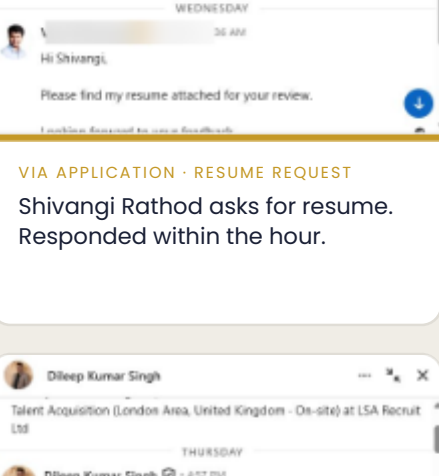

FIRST INTERVIEW CONFIRMED

Tracked every application from submission to response. First interview came through Naukri, which we had optimized and kept active from day one.

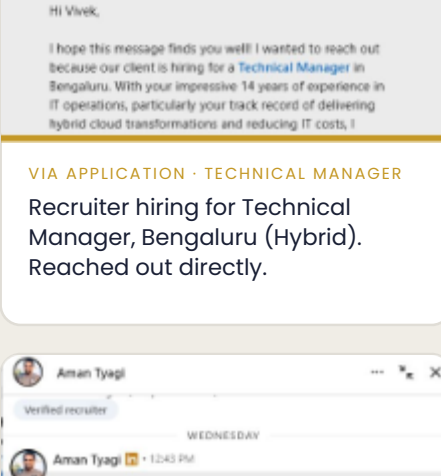

Every Application. Every Follow-up. Handled.

5 recruiter responses through our job applications. 3 conversations through targeted outreach. Every screenshot is real
